

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, JULY 13, 2006 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was light nationally with 167 new fires reported. Nine new large fires (*) were reported, three in the Eastern Great Basin Area, two each in the Northern Rockies and Western Great Basin Areas and one each in the Northern California and Northwest Areas. Six large fires were contained, two in the Eastern Great Basin Area and one each in the Southern California, Western Great Basin, Northern California and Southern Areas. Very high to extreme fire indices were reported in Oregon, Arizona, Alaska, California, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, South Dakota, Utah and Wyoming.

A Type 1 Incident Management Team (Opliger) is assigned to the 21,651 acre Wutlus Lake fire 37 miles west of Quesnel, British Columbia, Canada. No new information was reported.

SOUTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

SAWTOOTH COMPLEX, San Bernardino Unit, California Department of Forestry and Fire Protection (CDF). A Unified Command has been established between a CDF Type 1 Incident Command Team (Henson) and the US Forest Service. This complex, comprised of the Sawtooth, Waters, and Ridge fires, is two miles east of Yucca Valley, CA, in chaparral. Numerous residences remain threatened. Voluntary evacuations for Morongo Valley and portions of Yucca Valley have been implemented. Road closures including Highway 247, Wamego, Pipes Canyon, and Pioneertown are in effect. Weather and steep, inaccessible terrain are impeding containment efforts. Extreme fire behavior with significant upslope runs was reported.

MILLARD COMPLEX, San Bernardino National Forest. A Unified Command has been established between a Type 2 Incident Management Team (Walker), a CDF Type 1 Incident Command Team (Hutchinson) and the Riverside County Fire Department. This complex, comprised of four fires, is seven miles north of Cabazon, CA in chaparral and conifer. Numerous residences and cultural resources are threatened. Increased fire activity is hampering containment. Extreme fire behavior with rapid spread was observed.

ARCO, Kern County Fire Department. This fire is five miles north of Lebec, CA in chaparral. No further information was received. This will be the last report unless new information is received.

BDD - Bakersfield District Office, Bureau of Land Management

NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

BUNDY RAILROAD, Billings District, Bureau of Land Management. A Type 2 Incident Management Team (McNitt) has been ordered. This fire is eight miles northeast of Warden, MT in timber, grass, and sage. High winds from passing thunderstorms contributed to extreme fire behavior.

SAUNDERS, Southern Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Heintz) is assigned. This fire is four miles west of Columbus, MT in grass and timber. Numerous residences remain threatened, and evacuations remain in effect. Brumfield and Countryman Creek Roads remain closed. Minimal fire behavior was reported.

PINE RIDGE COMPLEX, Southern Land Office, Montana Department of Natural Resources and Conservation. This complex, comprised of five fires, is south of Pompeys Pillar, MT in sagebrush and agricultural fields. One residence and a pipeline are threatened. Extreme fire behavior was observed.

NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

CANYON, Santa Clara Unit, California Department of Forestry and Fire Protection (CDF). A CDF Type 1 Incident Command Team (Paul) is assigned. This fire is 11 miles west of Patterson, CA in chaparral. Several residences and ranches remain threatened and voluntary evacuations are in effect. Del Puerto Canyon Road remains closed to civilian traffic. Difficult access, steep terrain, and weather continue to impede containment. Very active fire behavior with significant runs, spotting, and torching was reported.

YOLLA BOLLY COMPLEX, Mendocino National Forest. A transfer of command from a Fire Use Management Team (Perkins) back to the local unit has occurred. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This incident is 35 miles west of Red Bluff, CA in timber. Continued surface fire and torching were observed. This will be the last narrative report unless significant activity occurs.

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

SAGE VALLEY, Richfield Field Office, Bureau of Land Management. This fire is 10 miles north of Mills, UT in pinyon pine, juniper, grass and sagebrush. A residence, outbuildings and a gas line are threatened. Major fire runs and spotting were reported.

BABOON 2, Cedar City District, Bureau of Land Management. This fire is 10 miles south of Minerville, UT in cheatgrass, sagebrush, pinyon pine and juniper. State Route 130 is closed. Good access is aiding suppression efforts. Active fire behavior included running, crowning and spotting.

LAKE RIDGE, Northwest Area Office Idaho Department of Lands. This fire is eight miles east of Bear Lake, UT in grass, sagebrush and brush. Minimal fire activity was reported.

WEST KANOSH, Fish Lake National Forest. This fire is six miles southwest of Kanosh, UT in brush and hardwood slash. Crowning, running and spotting were reported.

BOD - Boise District, Bureau of Land Management

WESTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

STORM CLOUD, Carson City Field Office, Bureau of Land Management. This fire is 35 miles northwest of Austin, NV in brush, grass, pinyon pine and juniper. Good overnight humidity recovery slowed the fire progress. Moderate fire behavior with occasional torching was observed.

BALLY, Ely District, Bureau of Land Management. This fire is seven miles northeast of Barley, NV in brush, slash, and Pinyon Juniper. High winds and low relative humidity are hampering containment efforts. Extreme fire behavior, with crowning runs and spotting was observed.

WID - Winnemucca Field Office, Bureau of Land Management

NORTHWEST AREA INCIDENTS/LARGE FIRES:

SPUR PEAK, Okanogan/Wenatchee National Forest. A Washington Type 2 Interagency Incident Management Team (Jennings) is assigned. A transfer of command back to the local unit will

occur tomorrow. This fire is 13 miles northeast of Winthrop, WA in spruce and lodgepole pine. Forest road and trail closures remain in effect. A campground remains closed. Minimal fire activity was reported.

WHITE KING, Klamath-Lake District, Oregon Department of Forestry. This fire is nine miles northwest of Lakeview, OR in timber. Smoldering, creeping, and some torching were reported.

TIN PAN, Okanogan-Wenatchee National Forest. A Fire Use Management Team (Furlong) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is seven miles west of Lucerne, WA in timber. The fire received some precipitation. Limited fire spread, smoldering, and creeping were reported.

OUTLOOK:

Red Flag Warnings: In southwest and central Wyoming for gusty southwest winds and low relative humidity.

Fire Weather Watches: In the plains of central Montana and northeast Montana for low relative humidities and gusty winds.

Weather Discussion: A low pressure trough will move across the northern Plains today with gusty winds over portions of the Great Basin, Northern Rockies, and Rocky Mountain Areas. Thunderstorms will develop over portions of Arizona, New Mexico, and the Plains.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Southern California Area Patchy morning low clouds and fog coastal areas, otherwise mostly sunny, except becoming partly cloudy with isolated showers over the mountains and deserts of Southern California east of Cajon Pass in the afternoon.	85 to 100 mountains. 100 to 110 valleys. 100 to 110 upper deserts. 110 to 120 lower deserts.	40 to 60% coastal areas. 15 to 30% valleys. 15 to 30% mountains. 10 to 20% deserts.	Southeast to southwest 5 to 15 mph.
Northern Rockies Area Much of the area will experience partly cloudy, windy and dry conditions behind an upper trough moving across North Dakota. This trough will bring a risk of thunderstorms to eastern North Dakota. Temperatures will again be seasonal west of the Continental Divide and well above normal across eastern Montana and all of North Dakota.	West of divide: 78 to 85. East of divide: 85 to 95. North Dakota: 92 to 99.	West of divide: 25 to 35%. East of divide: 15 to 22%. North Dakota: 20 to 30%.	West of divide: West 10 to 15 mph. East of divide: West 15 to 25 mph. North Dakota: West 15 to 25 mph.
Eastern Great Basin Area Idaho, Bridger-Teton: Mostly sunny. Northern Utah: Mostly sunny. Southern Utah, Arizona Strip: Mostly sunny.	Idaho, Bridger-Teton: 73 to 89 mountains, 83 to 94 valleys. Northern Utah: 76 to 84 mountains, 85 to 101 valleys, Southern Utah, Arizona Strip: 80 to 92 mountains, 93 to 106 valleys, 107 to 118 low deserts.	Idaho, Bridger-Teton: 20 to 33% mountains, 11 to 23% valleys. Northern Utah: 16 to 26% mountains, 6 to 15% valleys. Southern Utah, Arizona Strip: 15 to 26% mountains, 5 to 14% valleys.	Idaho, Bridger-Teton: West to southwest 10 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, Arizona Strip: south/southwest 15 mph.
Western Great Basin Area Sunny with localized gusty afternoon winds across the north.	Northern Valleys: 85 to 98. Southern Valleys: 94 to 116. Northern Mountains: 72 to 89. Southern Mountains: 83 to 93.	Northern Valleys: 9 to 15%. Southern Valleys: 9 to 15%. Northern Mountains: 10 to 23%. Southern Mountains: 9 to 14%.	South to west at 5 to 15 mph, with some gusts to 30 mph, especially across the northern parts of the state.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Rocky Mountains Area Isolated over the plains, otherwise hot and dry.	95 to 100, except 80s in the mountains.	5 to 15%.	Southwest 15 to 30 mph over Wyoming. Variable 5 to 15 mph across Colorado. Northwest 10 to 25 across the plains of South Dakota, and Nebraska.
Southwest Area Mostly sunny, hot and drier. Isolated thunderstorms southeast Arizona, southern and eastern New Mexico and west Texas.	90 to near 115 lower elevations. 75 to 90 in the higher terrain.	12 to 25%.	West to southwest 5-15 mph Arizona and western New Mexico, with local gusts to 25 mph. South 10 to 20 mph eastern New Mexico and west Texas.
Eastern Area Showers and thunderstorms likely across southern parts of Missouri, Illinois, Indiana, and the southern half of the Mid-Atlantic states. Lingering morning showers over the eastern northeast states. A chance of showers and storms later in the day across western Minnesota. Fair elsewhere.	78 to 86 over the Northeast and Mid-Atlantic states. 85 to 95 elsewhere.	30 to 40% across the far western Great Lakes and far northwestern Iowa. Greater than 40% elsewhere.	South at 15 to 25 mph across the far western Great Lakes and northwest Iowa. Light to moderate winds elsewhere.
Alaska Area Mostly cloudy with rain across the western half of the state, and scattered showers and thunderstorms over the eastern half.	Upper 50s to upper 70s	Above 40% except 30 to 40% in the eastern interior.	Southwest to northwest at 5 to 15 mph, except southwest Alaska with winds to 25 mph.
Southern Area No information reported.			
Northern California Area No information reported.			
Northwest Area No information reported.

EXTENDED ATTACK

After your initial sizeup of the fire and/or transfer of command from an initial attack IC, answer the following questions. Repeat this analysis whenever there is a change, or predicted change, in fire conditions.

- Do you have a current fire weather forecast for the fire location?
- Is the observed fire weather consistent with the forecast?
- Have you established a new organizational structure and communicated it to the other forces associated with the fire?
- Can you control the fire with the resources available (either on the incident or soon to be on the incident) under expected conditions?
- Have you developed a plan to attack the fire?
 - Direct or indirect
 - Anchor points
 - Escape routes
 - Head or flank attack
 - Priority areas
- Have you communicated this to all personnel assigned to the incident, including new arrivals?
- Can you see all of the fire area?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes established?
 - If you are using the black, is it completely burned and without a reburn potential?
- Are safety and the standard fire orders being followed?
- Will you contain the fire before the next operational period?
- Have you reported the status of the fire to dispatch?
- Do you have a complete list of what resources have been ordered for the fire?
